**BRING
NANOSCIENCE
TO YOUR
CLASSROOM!**

Selected teachers will learn about nanoscience in simple terms while earning a stipend and education credits.

Learn & play with nanoscience!

JOIN US THIS SUMMER

The nano@stanford is holding a four day Nanoscience Summer Institute for Middle School Teachers (**NanoSIMST**), June 29 - July 2, 2020.

Selected teachers will learn the underlying physical concepts in nanotechnology and nanoscience in simple terms. This unique learning experience can enrich your current courses through both deepening content understanding and instructional practices.

- Learn about the cutting edge research at Stanford from guest lectures
- Develop customized, NGSS-aligned activities and lesson plans for your classroom
- Receive education credits and stipend upon completion of workshop (\$500) and classroom implementation (\$300)

APPLY NOW!
